ANNALS OF HUMAN BIOLOGY, 1990, VOL. 17, NO. 6, 563–564

SUBJECT INDEX

Adaptive significance of polynesian body form 19
Adjacent velocities and accelerations in longitudinal growth data 55
Age and sex differences in bone density of second metacarpal 399
Age and sex differences of bone mass and density 399
Age as a predictor in primiparous women 377
Age at menarche in a Punjabi population, review of Indian data on menarcheal age 159
Age at menarche in Flemish girls; secular change during the 20th century 145
Age at menarche in northwest Indian females 159
Age of cessation of endocranial growth using logetronic copying and photosubtraction 289
Age of menarche in Bolivian girls of European and Aymara ancestry 49
Age variation in hearing and eye accommodation 235
Annual growth increments in school children from Mexico 41
Anthropometric measurements of Saudi boys aged 6–14 years 33
Arm-span, height and age in Black and White women 533

Basal metabolic rate and energy expenditure in Gurkha and British soldiers 133
Biochemical values of immigrants in France 277
Bioelectrical impedance and total body water in young adults 445
Blood pressure, hypertension, African admixture in a Caribbean community 387
Bone density of the second metacarpal 399

Comparative foot dimensions in Filipino and Tokyo children 249
Comparisons of Lasker's coefficient of relationship 305
Consanguinity, spousal age at marriage and fertility in Pakistani Punjab cities 97
Correlations between adjacent velocities and accelerations in longitudinal growth data 55
Cross-sectional survey of upper and lower limb strength in children aged from 5 to 7 years 199
Cyclical nature of prepubertal growth 177
Cystic fibrosis patients; early childhood growth 483

Daily measurements of heights of two children 437
Difference in head circumference between Japanese and Caucasian children 297
Digital dermatoglyphics of populations of the Brazilian Amazonia 213
Distribution of 1-protease inhibitor subtypes in several East Asian Mongoloid populations 229
Dynamics and intensity of average growth 459

Early childhood growth in cystic fibrosis patients 483
Energetic cost of standard activities in Gurkha and British soldiers 133
Eruption of permanent teeth in South African Indian children 515
Estimation of age-related centiles 475

Familial transmission of longevity 81
Fecundity and mortality, survey of a Mediterranean region in south east Spain 153
Fertility and malaria in Sardinia 315
Fertility, mortality and anaemia in the Mahishyas of Howrah district, West Bengal 331
Field theory and digital dermatoglyphics 213

Genealogical and genetical African admixture, blood pressure hypertension in Caribbean community 387
Genetic affinities of the Shetland Islanders 121
Genetic distance and heterozygosity 501
Genetic variation in north east England 265

Head circumference growth curve 297
Hearing and eye accommodation in childhood and adolescence 235
Height and mortality in England and Wales 1

Inbreeding coefficients from isonymy 543
Intrapopulational and interpopulational genetic diversity in man 501
Isonymy in emigrants from Ferrara in 1981–1988 7

Lasker's coefficient of relationship in a Venezuelan town in two different periods 305

Marital correlation for anthropometric traits 417
Mean heights and weights of Tamil children from Jaffna, based on single occasion measurements 107
Measurement error in human dental mensuration 513
Mechanisms of natural selection in rural populations in south east Spain 153
Median age of menarche in European and Aymara natives 49
Menarcheal age and secular change in the 20th century in Flemish girls 145
Mortality and height in England and Wales 1
Motor performance as related to age at peak height velocity 423
Muscle strength in children from 5 to 17 years of age 199

Natural selection in rural populations of a Mediterranean region 153
New cathodal Gc variant in Australia 245
New statistical method for determining average growth curve 459
Non-parametric estimation of age-related centiles 475

Permanent teeth eruption in South African Indian children 515
Prepubertal growth, cyclical pattern 177

Red cell G6PD phenotypes in several East Asian Mongoloid populations 529
Reference values in immigrants in France 277
Reliability of human odontometric data 523
Reproductive and chronologic age; risks of low birth weight preterm delivery and intrauterine growth retardation 377

Secondary sexual development of Cape coloured male ex-kwashiorkor patients 217
Short-term variations in stature growth; Ethiopian and English children 407
Sibling similarity in annual growth increments in school children from a rural community in Mexico 41
Single occasion means of height and weight of Tamil children from Jaffna 107
Skeletal maturity in Belgian youths; Tanner–Whitehouse method 355
Skin colour data from Nowshahr city, northern Iran 115
Spousal age at marriage, time to first birth in populations of Punjab cities 97
Stature growth; short-term variations in Ethiopian and English children 407

Tanner–Whitehouse method assessment for skeletal maturity 355
Total body water in young adults 445

ANNALS OF HUMAN BIOLOGY, 1990, VOL. 17, NO. 6, 565–568

INDEX OF AUTHORS

AL-HAZZAA, H. M.: Anthropometric measurements of Saudi boys aged 6–14 years. 33
ALMEDOM, A., *see* HARRISON, G. A.
ARCHER, G. T., *see* LAI, L. Y. C.
